

A Doctor's First Question Is ?

"How are Your Bowels?" A Simple Remedy that Guarantees Good Bowel Action.

Trace the origin of the commoner ills of life and almost invariably you will find that constipation was the cause. It is not to be expected that a mass of fermented food can remain in the system beyond its time without vitiating the blood and affecting the nerves and muscles. It congests the entire body.

The results are colds, fevers, piles, headaches, and nervousness, with its accompanying indigestion and sleeplessness. There is only one thing to do, and that is to remove the trouble; and when nature seems unable to do it, outside aid is necessary. You will find the best of all outside aids a remedy that many thousands are now using for this very purpose, called Dr. Caldwell's Syrup Pepsin. Many hundreds of letters are received by Dr. Caldwell telling of the good results obtained, and among the enthusiastic letters is one from Lieut. G. W. Vaughan, of 623 W. North St., Decatur, Ill. He is 72 and has had a bad liver and stomach since he came out of the army. He says he tried about everything, but never succeeded in getting permanent relief until he took Dr. Caldwell's Syrup Pepsin. He is never without a bottle in the house, and he is never without good health.

It has untold advantages over pills, salts and the various coarse cathartics

LIEUT. G. W. VAUGHAN

and purgatives, for while these do but temporary good, Syrup Pepsin cures permanently. The effect of its action is to train the stomach and bowel muscles to do their work naturally again, and in a short time all forms of medicine can be dispensed with. It can be bought without inconvenience at any nearby drug store for fifty cents and one dollar a bottle, the latter size being regularly bought by those who already know its value. Results are always guaranteed or money will be refunded.

Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. B. Caldwell, 203 Washington St., Monticello, Ill. A postal card with your name and address on it will do.

If a man admires a woman she should at least admire his good taste.

Putnam Fadeless Dyes will last until the goods wear out. Adv.

Holland and England will be directly connected by telephone as soon as new cables are laid.

Dr. Pierce's Pleasant Pellets first put up 40 years ago. They regulate and invigorate stomach, liver and bowels. Sugar-coated tiny granules. Adv.

Plaster. "They say absinthe is the favorite French drink."

"Plaster of Paris, eh?"

What It Means. Hip—What does it mean to say that a girl is as pretty as a picture?

Hop—Merely a frame of mind.—Michigan Gargoyle.

That Week Didn't Count. Isaac (who had just recovered from typhoid)—Doctor, you have charged me for four weeks' calls; I will pay for only three weeks!

Doctor—But I called on you every day for four weeks, Mr. Isaac.

Isaac—Well, there was one week I was delirious and I didn't see you come in.

Weakness. The sick German Evans ruled the destiny of the Scott Antarctic expedition.

The weakest link in the chain gives the value to the chain. Civilization follows the path of least resistance. The drone or black sheep of the family centers the attention of the group on him, impairs its economic efficiency; in effect dominates the household. The enduring character of a society is determined not by its cultured group, but by its "submerged tenth," or five-tenths.

Queer Reasons for Pride. Some weeks ago when the Volturro burned in midtown a few of the men rushed the boats and were knocked down by the captain. What becomes of such men in after days? Do they hide in shame from their fellows, fearful that they may be recognized and their infamy proclaimed? Not necessarily. A public librarian was once visited by a man who came to him for a book on notable shipwrecks. He searched the pages eagerly, then pointed out a passage referring to a seaman who tried to take a woman's place in a lifeboat, and had been shot by the captain. "I'm that man," he declared, proud that his exploit should appear in print, and offered to show the shot wound to support his claim!

Another Coffee Wreck. What's the Use When There's an Easy Way Out?

Along with the coffee habit has grown the prevalent "American Disease"—nervous prostration.

The following letter shows the way out of the trouble:

"Five years ago I was a great coffee drinker and from its use I became so nervous I could scarcely sleep at all nights. My condition grew worse and worse until finally the physician I consulted declared my troubles were due to coffee.

"But being so wedded to the beverage I did not see how I could do without it, especially at breakfast, as that meal seemed incomplete without coffee.

"On a visit, my friends deprived me of coffee to prove that it was harmful. At the end of about eight days I was less nervous, but the craving for coffee was intense, so I went back to the old habit as soon as I got home and the old sleepless nights came near making a wreck of me.

"I heard of Postum and decided to try it. I did not like it at first, because, as I afterwards discovered, it was not made properly. I found, however, that when made after directions on the package, it was delicious.

"It had a soothing effect on my nerves, and none of the bad effects that coffee had, so I bade farewell to coffee and have used only Postum since. The most wonderful account of the benefit to be derived from Postum could not exceed my own experience."

Name given by Postum Co., Battle Creek, Mich. Write for a copy of "The Road to Wellville."

Postum now comes in two forms: Regular Postum—must be well boiled.

Instant Postum—Is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage instantly. Grocers sell both kinds.

"There's a Reason" for Postum.

The Property. Kries—The Browns are divorced. Kross—Who has the custody of the car?—Town Topics.

HOG CHOLERA PREVENTION BY ALL OWNERS

Cement Trough for Pigs.

No matter how healthy and vigorous your hogs may be, it pays to watch for news of a possible outbreak of the cholera anywhere in your neighborhood.

The surest way to prevent cholera is to keep your hogs clean and healthy. The state veterinarian is the man you should appeal to as soon as the cholera appears in your neighborhood. It makes no difference whether the disease is among your hogs or not. It may be, and that very soon, unless it is checked.

When cholera gets among hogs on my place I separate the healthy from those that are sick just as quickly as I can. The next move is to notify the state agricultural college, or its nearest experiment station.

While waiting for expert relief, either at the hands of the state experts or some local veterinarian, the hogs should be watched, and any new cases that develop should cause the well part of the herd to be moved once more.

Of course, all animals that die of cholera should be burned as quickly as is convenient. Leaving them lying in the open will cause the cholera

germs to be spread by buzzards, dogs and other carrion eaters.

Burial of the bodies is satisfactory only when the are sprinkled with quicklime and buried at a depth of three to four feet. Many herds have been wiped out by disease carried into their ranges by prowling dogs carrying bones and pieces of carrion through the fields.

There are no breeds of hogs that are immune from the cholera. There are certain individuals among a herd that show great resistance to the disease, but they are few in number. So far the efforts of breeders to produce such a strain have been failures.

As to rearing, feeding and caring for a herd so fearfully that cholera germs cannot hurt them, it is impossible.

Anything moved from an infected farm to a place that is not infected may carry the seeds of the disease. Of course hogs are most apt to carry it, but the utmost precautions should be taken that no animals, implements or foodstuffs should be brought from an infected place and left where the hogs might be exposed to contact with them. Sick hogs are the most common of disease carriers.

State veterinarians are always anxious to be informed of the outbreaks of cholera. The sooner they know of it the better chance they have of keeping it isolated in one community. It is a duty that every hog raiser owes to himself and neighbors, to get word to the proper authorities as soon as possible that the necessary steps may be taken.

No Rest—No Peace

There's no rest and but little peace for a person whose kidneys are out of order.

Lame in the morning, suffering cricks in the back and sharp stabs of pain with every sudden strain, the day is just one round of pain and trouble.

It would be strange if all-day backache did not wear on the temper, but it is not only on that account that people who suffer with weak kidneys are nervous, cross and irritable.

Uric acid is poison to the nerves, and when the kidneys are not working well, this acid collects in the blood and works upon the nerves, causing headache, dizziness, languor, an inclination to worry over trifles, and a suspicious, short temper.

Rheumatic pain, neuralgia, sciatica, lumbago, neuritis and gravel are further steps in uric acid poisoning.

Don't neglect kidney weakness. An aching back, with unnatural passages of the kidney secretions, is cause enough to suspect the kidneys. Use Doan's Kidney Pills, a remedy which has been used for years, the world

"Every Picture Tells A Story"

"Oh, I shall go mad."

over, for weak kidneys, backache, irregular kidney action and uric acid trouble. Thousands of grateful recommendations throughout the country prove their worth.

WOULD ALMOST FAINT Cured After Doctors Failed

Mrs. Henry Zumbach, Hutchinson, Minn., says: "Last winter a terrible, sharp pain caught me in my back and from that time on I had a constant backache. If I went to bed, it just seemed as if my back was breaking. I was in misery day and night and at times I got so dizzy I thought I was going to faint. At night I had to put a pillow under my back for the slightest relief that this gave me. I got so weak I couldn't do anything. The doctor said I had a floating kidney and two specialists in Minneapolis said the same. The physicians' medicine didn't help me a bit and reading about Doan's Kidney Pills, I had someone get me a box. As soon as I began using them, I got better and by the time I had finished the third box, I didn't have a bit of pain. I can now do any kind of work without suffering and all the symptoms of kidney complaint have left me. Doan's Kidney Pills have certainly spared me a great deal of misery and suffering. I am only too glad to recommend them to other kidney sufferers."

Overpayment. A certain statesman, condemning the international marriage that is based on mercenary and sordid grounds, said in Washington: "Another pretty American countess—she inherited eight millions from her father's wholesale hardware plant—has found marriage a disappointment."

"Her dyed and cornstarched old husband said bitterly to her one day: 'Ours was a business marriage. You bought my title with your millions, as you'd buy a yard of cloth in a shop.'"

"Yes," blazed the young countess, "yes—but I ought to have got some change!"

IS CHILD CROSS, FEVERISH, SICK

Look, Mother! If tongue is coated, give "California Syrup of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

The road to hell is paved with good intentions and the pavement makes smooth riding.

Before we censure a man for seeming to be what he is not, we should be sure to know what he is.

Antacidizing Tobacco Remedy—Guaranteed to instantly remove taste for cigarettes or tobacco in any form, or money cheerfully refunded. Send 10c and receive wonderful remedy by return mail. Address: P. H. Tobacco Co., Inc., New York, N. Y.

Deposits of platinum sufficiently rich to make their operation profitable have been discovered in Germany.

Your Liver Is Clogged Up That's Why You're Tired—Out of Sorts—Have No Appetite.

CARTER'S LITTLE LIVER PILLS will put you right in a few days.

They do their duty. Cure Constipation, Biliousness, Indigestion and Sick Headache. SMALL PILL, SMALL DOSE, SMALL PRICE.

Genuine must bear Signature

Are quickly relieved by Sloan's Liniment. Lay it on—no rubbing. Try it.

Ankle Sprain and Dislocated Hip. "I sprained my ankle and dislocated my hip by falling out of a third story window. Went on crutches for four months. Then I started to use your Liniment, according to directions. I must say it is helping me wonderfully. We will never be without Sloan's Liniment anymore."—Chas. Johnson, Louisville, Ky.

For Stiffness. "Sloan's Liniment has done more good than anything I have ever tried for stiff joints. I got my hand hurt so badly that I had to stop work right in the busiest time of the year. I thought at first that I would have to have my hand taken off, but I got a bottle of Sloan's Liniment and cured my hand."
